

Bosch Smart Home Eyes Outdoor Camera

Full-HD video recording, day and night

The combination of camera and atmospheric lighting produces high-quality color pictures with outstanding image quality (1080 p - Full-HD video quality) even at nighttime. The smart camera can be easily mounted instead of an outdoor light thanks to the integrated atmospheric lighting. In addition, the Eyes Outdoor camera can be integrated into the Bosch Smart Home System and controlled via Amazon's Alexa voice service.

Notable features and benefits:

- Offers full-HD color video recording – even at night
- Cleverly conceived combination of security solution and stylish, attractively designed outdoor lighting
- Integrated motion sensor makes it possible to record only those events that are relevant
- Notifies the user of events in the Bosch Smart Camera App or the Bosch Smart Home App
- Integrated in the Bosch Smart Home System, the camera is a valuable device of the alarm system for verifying the situation
- Maximum security via two-way communication between speaker and microphone

Latest software update:

- Triggering of video recordings possible not only with movement, but now also with sound
- More security and ease of use with precise date and time displays in video clips and additional settings options, among other features
